Headteacher Miss Zoe Loosemore

15th November 2021

Dear Year 3 Parents and Carers,

During the year, we will be providing the Year 3 children with opportunities, across the curriculum, to participate in the following activities:

- Design and sew a Stone Age toolbelt, from hessian in DT (Autumn)
- Dissect Stone Age poo (made from homemade playdoh) to establish the diet of Stone Age people (Autumn)
- Taste test, design and make Salad Nicoise in DT (Spring)
- Plants for science investigations (Summer)
- Dissect flowers in a science lesson to support our unit on plants (Summer)
- Taste chocolate in our chocolate geography lessons (Summer)
- Design and make a prototype Roman chariot, using wooden dowels, in DT (Summer)

These practical lessons are often some of the most memorable for the children and the adults teaching them!

At this time, we would also like to ask for a one-off contribution of £7.00 towards the costs of the consumable resources. This can be made via your child's Scopay account by **Friday 3rd December 2021**. Historically this has been requested individually for each unit, but this way will avoid separate requests each time, throughout the year.

Thank you for your continued support.

Yours sincerely,

The Year 3 Teachers
