

Autumn 2014	
You Said...	So we...
You would like hand-outs at the parent information evenings	Have started to produce them
You enjoy the special assemblies that families are invited to	Are holding a new event of 'Carols Round the Tree' this December
There are a lot of information evenings this term	Have explained that due to the large number of national initiatives this year there is a lot of new information that we need to share with parents but that things should be quieter after Christmas!
That it was difficult to get parents to the Christmas performances with only one evening performance	Have moved to two evening performances as well as the matinee and the morning dress rehearsal
Spring 2015	
You like the new on-line version of the ladders but can see that there is still room for improvement	Are continuing to work with School Explained to help them implement as many changes as possible
You are still unsure about the school's policy on homework	Are continuing with our plan of two teachers running an action group this year to review this aspect of teaching and learning
You have really valued the Parenting Course but would love to see it run in the evening	Have made adjustments to Mrs Evans' timetable so that the summer term course can be run in the evening
Summer 2015	
You loved the family walk in the forest on a Sunday afternoon	Are planning another one for September
That you thought the format of sports day could be improved on from last year	Offered a parent working party and spoke to the children to make changes. These included more races for each child and getting the parents closer to the action
Year 6 parents fed back that they liked the structure of the pupil-led parent meetings in the spring term	Are planning to repeat this next year and roll this out to Year 5 too
