

## Our Vision

### Daring, Believing, Achieving Together

We are a school family that challenges itself to think bigger; we want to be the best that we can possibly be. Therefore, we are outward looking, innovative and expectant. We are happy to take risks and feel safe recognising and learning from our failures. We know that supporting one another we can achieve great things, children and adults together. We take inspiration from all that we, and others, have accomplished before and are excited and eager about the challenges and opportunities that are to come.

### So this is what we value...

- Creating a celebratory, exciting and challenging learning experience;
- Ensuring exceptional teaching and learning in an inspirational school;
- Driving a rewarding, rich, engaging curriculum;
- Building a thriving, caring, pupil-led community;
- Developing positive behaviours for life-long, self-motivated learning;
- Promoting the social, moral, cultural, spiritual and physical development of all our pupils;

Encouraging local, national and international collaboration.

### And our pupils recognise that these will help them to achieve

#### WE CARE Learning Skills

Working Together, Enthusiasm, Creativity, Ambition,  
Reflection and Enquiry
